

Product Specification

PolyGuard™ Asset Tags

Versatile and long-lasting tags that are universal in application

Seton's most popular asset tags offer a highly durable and cost-effective option for tracking a wide-array of property and equipment. Ideal for indoor and moderate outdoor environments.

Features

Multi-layered tags resist heat, tearing, stretching and can conform to a wide variety of surfaces. Protective topcoat guards from abrasion, solvents and other moderate caustic elements.

Application

Universal, strong adhesive adheres securely to most clean and dry surfaces such as computers, electronics, office furnishings, hand tools and more.

Materials

Metalized Polyester - 3 mil (.003")

Industries

Education, Healthcare, Business Services and IT Management.
