

Product Specification

UltraGuard™ Asset Labels

Durable tags that are ideal for the most demanding environments

Our toughest and most resilient tags are designed for chemical, UV and abrasion resistance found in highly industrial and caustic environments.

Features

Ultra-durable construction allows these tags to perform under the harshest of conditions. We offer stamped serialization for a more industrial aesthetic or bar code format for readability. Fully customizable text, background, logo and more.

Application

Various adhesive and material options for any surface or application, including medical and lab equipment, industrial machinery and power tools.

Materials

Anodized Aluminum
(For Flat Surfaces)

- 3 mil (.003")
- 5 mil (.005")

Annealed Aluminum
(For Curved Surfaces)

- 3 mil (.003")
- 5 mil (.005")

Industries

Healthcare, Manufacturing, Distribution, Construction, Utilities and Education.

Colors

Specifications

Numbering

Sequential, Custom or No Numbering

Bar Codes

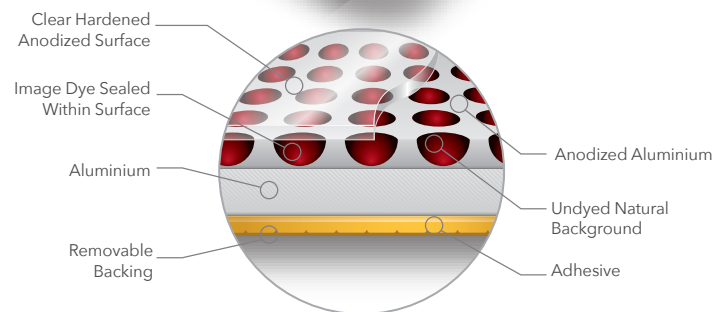

Code 39, Code 128, Interleaved 2 of 5, and 2D/QR Code

Available Sizes

14 options ranging from: 1-1/4"W x 1/2"H to 3"W x 2"H

Asset Labels

Adhesive

3M 467, 3M 468, 3M 9471, 3M 9472

Customization

Text, Logo, Background, Stamped Serialization, and Shape

Surface Temperature Range

-65F to 300F
